

ARE YOU LOOKING TO GIVE BACK? HAVE YOU CONSIDERED CHARITY TRUSTEESHIP?

Why become a Trustee?

Becoming a Trustee allows you to use your skills, insights, experience and networks, and is an inspiring and valuable way to engage with a charitable cause. At Carers Worldwide, our Trustee Board is closely involved in formulating and reviewing our strategic aims, ensuring our policies and practices reflect our charitable objectives and helping us to achieve best practice in whatever we do. Trustees challenge, advise and offer practical support based on their knowledge, skills and experience, including lived experience of caring. Acting as a Trustee is immensely rewarding, and Carers Worldwide Trustees can be sure that they are playing a significant role in transforming the lives of unpaid family carers and their family members – over 180,000 to date and with our exciting new development plans, hundreds of thousands more into the future.

Why Carers Worldwide and why now?

As we scale up our reach and expand into new locations and sectors, we are keen to strengthen our Trustee Board and bring in the skills that we need to help us realise our vision of a world in which every carer is valued and their needs are met.

To date, we have transformed the lives of over 180,000 carers and family members through our partnerships with local organisations in India, Nepal and Bangladesh. Legislative changes implemented as the result of our advocacy work are improving the lives of hundreds of thousands more carers.

We are now well into the next exciting stage of the Carers Worldwide journey as we seek to amplify our reach and diversify our ways of working in order to reach an ambitious target of impacting the lives of 10 million carers by 2030 through a combination of policy change and direct work.

As well as continuing our significant programme working with carers and partner organisations, we also have ambitious plans for expansion of our successful and sought after consulting skills with a variety of customers, from the not-for-profit sector as well as corporates and governments.

Who are we looking for?

We are looking for a new Trustee who can open doors to new funding opportunities which will enable us to sustain and upscale our vital work. The demand for our input from local charities across South Asia and most recently East Africa is growing and far outstrips our current capacity. We need to expand our team here in the UK and in India as well as roll out new projects on the ground. This all takes money that we do not currently have. We have the necessary strategic and operational planning in place and all the information about partners and projects, now we need the introductions to interested parties in a position to fund this life changing work.

If you understand our passion for changing the lives of carers and their families, have an extensive network of potential supporters who are in a position to listen and ultimately to donate, plus a small amount of time available to collaborate with us, then please do get in touch.

For more information and/or an informal discussion, please contact:
